## TIP GUIDE: TRACKING

Start here

1

## About Tracking

Use Tracking to monitor provider management workflows, from licensure applications to payor enrollment, with a clear step-by-step view of key credentialing processes. You can assign ownership, export Excel reports to track progress, and collaborate with your team using dated, timestamped notes. Tracking also allows you to set turnaround times, add custom follow-up dates, and flag important notes so priorities and escalations are easy to identify in reports.

*Note that tracking does not complete or submit applications on behalf of your provider; it's purpose is to serve as an internal tool to stay organized and on top of credentialing work your team needs to complete.*

**Add Tracking:**

Click here to start tracking a new workflow. If Tracking hasn't been set up for your team yet, contact your Customer Success Manager by reaching out to **support@modiohealth.com**

- 3 **Priority:** Choose a priority and start date for the tracking report.
- 7 **Subtype:** Pick the subtype for the tracking event (typically either "New" or "Renewal").
- 8 **Provider:** Select the provider associated with this tracking event. If this applies to a group, choose the FAC profile from the dropdown.

- 4 **Owner:** Select who "owns" this task.
- 6 **Type:** Based on the item type selected, choose the appropriate item from the dropdown—such as a facility, license type, malpractice carrier, or other relevant option—that matches the workflow you're working on.
- 9 **State License:** If applicable, select the state license this tracking event is required for.
- 11 **Tracking Name:** Edit the tracking name if desired (optional).
- 12 **Share:** If you have multiple facilities, you can share this tracking event but it will only appear in a "Read Only" view. This means the tracking event is locked in their view.

- 14 **Date auto-shift:** The Auto-shift Estimated Dates box is checked by default, meaning the estimated start and due dates automatically adjust based on the number of estimated days for each step. For example, increasing a step from 3 to 5 estimated days will automatically update the due date accordingly.

- 5 **Tag(s):** Add any tags to help with better organizing.
- 10 **Append to Tracking Name:** If checked, the practice/ employer will be added to the Tracking Name.
- 13 **Description:** Add a description to your workflow.
- 15 **Save:** Once you have set up tracking, click **Save**. The tracking item will be saved as "Pending." When you are ready, click **Start** and tracking will be moved to "In Progress" status.

\* Note: By filtering in the status column to 'Archived', you will have the option to restore or delete any archived tracking.

Actions Key

Green Plus: Restore

Red Trashcan: Hard Delete

**\*Pro Tip\*:** Hard deletes are permanent. If a tracking event is completed or archived, it's best to leave it in place so it remains available for reporting purposes.

Edit and save any additional details before you click **Start**; some of these (start date, status, Type and Subtype) cannot be changed once you begin the tracking process. Finally, click **Start** to proceed.

**Step Name:** Each Type & Subtype combination has a set of steps with an estimated timeline. We will work with you to customize these for your organization. For each step, you can specify the name, estimated days, and start/due dates for each step to fit your needs.

**Start Step:** When the step is complete, fill out the **“Completed Date”** and any **notes**, then click **Complete**.

**Start Date:** The Start Date will default to the current calendar date when you started working on the task referenced in the step, then add any notes.

**\*Pro Tip\*:** Click the envelope icon to send a reminder to the assigned team member to complete their step. Automatic reminders aren't sent by default, but this option allows you to send one manually when needed.

**Auto-start:** Auto-start is automatically checked. This means the next step will start automatically as soon as the previous step has been completed. Without auto-start, you will need to manually click start on each consecutive step, which is why we set this for you.

**Assigned To:** Each step is automatically assigned to the tracking **Owner** you designated. At the step level, you can reassign each step as needed by entering the name of another team member under **Assignee**. You can assign steps to different people within the same application.

**Add Follow-up Date:** Click here to **Add a follow up date**. A new modal will appear asking for the follow up date and the reason. This will be recorded in the notes, and then the due date adjusts automatically.

**Continuing Steps:** Repeat for each step until you reach the end of the designated steps. You can leave the tracking report and come back to it at any time - your progress will be saved, and you'll see the status on the tracking report set as "In Progress."

You'll find Tracking Quicklinks in OneView V1 represented by a **star** icon within the provider's profile under the Healthcare Payor, Licensure, and Facility Affiliations sections. You'll also see the star icon on the team page, on the provider's profile card next to Provider Onboarding.

Tip Guide: Tracking - Locating the Star Quick Links in V2

In V2, Tracking Quicklinks are represented by a **star** icon and can be found in several places: within the Provider Info grid, by right-clicking the provider’s name and opening the Provider Profile Card where the star appears next to Provider Onboarding; under the Work Experience tab within the Facility Affiliations grid, and under the Licensure tab for the State, DEA, and State Controlled Substance grids.

**\*Note:** At this time Healthcare Payors are not currently in V2.

Star Icon Key

- New/Initial
- In Progress - Initial or Initial Privileging Subtype
- In Progress - Recredentialing, Reappointemnt, or Renewal Subtype
- Completed - Recredentialing, Reappointmnet, or Renwal tracking

**\*Pro tip\*:** If you hover your cursor over the star icon, it will display the tracking subtype it's associated with.

By default the star icon links to the **Initial** subtype for healthcare payors and licenses, and the **Initial Privileging** subtype for facility affiliations. It also links to the **Recredentialing** subtype for healthcare payors, the **Reappointment** subtype for facility affiliations, and the **Renewal** subtype for licenses.

If you have additional subtypes for those tracking types, they won't translate to the star quick link, since the star can only be linked to a limited number of tracking subtypes. You'll still be able to access any tracking events you create for those subtypes from the Tracking Dashboard—they just won't appear through the star icon. If you'd like to change which subtypes the tracking stars are linked to, please reach out to support@modiohealth.com.

Within the Reports Module tab you can access the Tracking reports Folder.

**Affiliations & Payors:** Includes additional facility notes, showing only the most recently added note.

**Payors with Tracking Notes:** Displays all recent payor tracking notes for in-progress tracking, across all payors for the entire team.

**Tracking All Items:** Includes every status, including overdue items, and helps evaluate and adjust completion timelines. Results are broken out by step (for example, a 7-step workflow will appear 7 times).

**Tracking Notes:** Reports on the most recent note added to each tracking record. Records without notes will not appear.

**Tracking Open Items:** Shows all pending and in-progress items by tracking record.

**Tracking Single Team:** Displays tracking for all statuses (including historical records) by tracking record.

**Tracking Reports /Inactive Folder:** These reports use the same columns as the standard reports. However, the data reflects inactive profiles, whereas the original reports only include active profiles. To capture a complete dataset across all profile statuses—such as for end-of-year productivity reporting—it’s important to run both reports.
