Tip Guide: OIG REPORTS

Office of Inspector General

Tip Guide: OIG

The OIG Feature within Modio's OneView®

INTRODUCTION:

- Modio's OneView® system is integrated with the OIG (federal) exclusion database. To learn more follow this link - https://exclusions.oig.hhs.gov
- Modio runs the OIG report every month (on or about the 15th of the month) against your team roster. (This includes all provider types)
- There are 2 ways in which Modio's OIG functionality supports your compliance policies.
 - 1. Automated monthly verification process on all credentialing profiles in your system.
 - 2. You can access "on demand verification" through the provider profile link.

HOW TO RUN A SUCCESSFUL REPORT:

- In order to run a successful report, we require your provides profile to be completed with either an NPI or SSN. Please note, a name and date of birth is not enough.
- The OIG report will include the providers *full name, primary speciality, date of birth, NPI#, home address, phone, OIG Status, and last updated date.* The previous month's report is replaced when the new midmonth report is run. This requires you to generate the report and save it to their files.

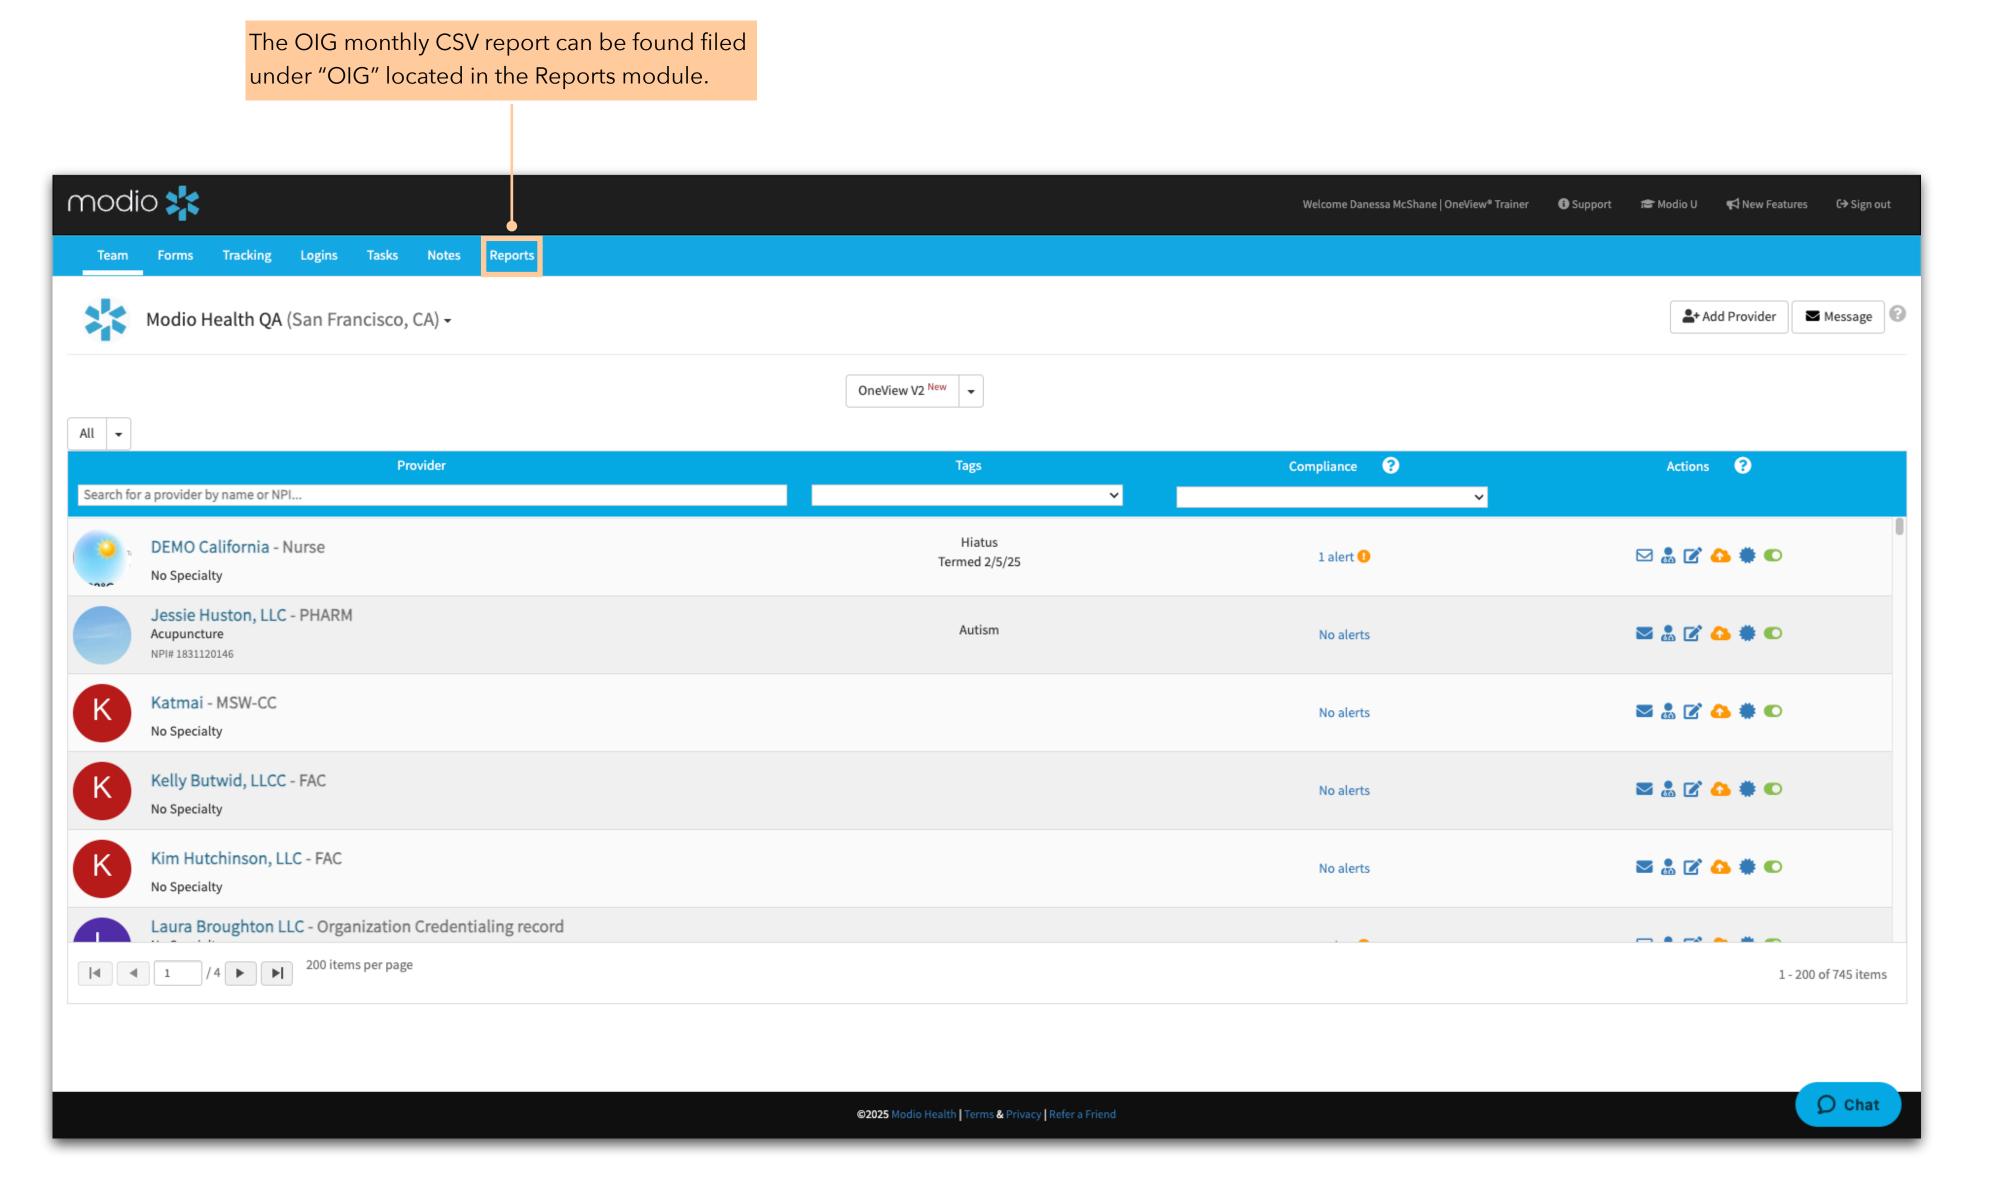

OIG REPORT OUTCOMES:

- If no results are found when you run the updater, you'll see two options: "Acknowledge and Close" (closes the window without doing anything else) or "Save OIG Verification" (saves the no-results document to the provider profile).
- If there is a potential match, Modio will attempt to verify if it is in fact the provider in OneView® if the appropriate data is available to do so. Please note, Modio will attempt to notify any clients that have a provider with an exact match. In the event of a partial match, we will not notify and it is ultimately the responsibility of the client to review the OneView® compliance report to determine if there's an issue with any of the providers.

Automated OIG Monitoring with Modio

Modio runs the OIG verification process every month (on or about the 15th of the month) on your team's credentialing profiles.

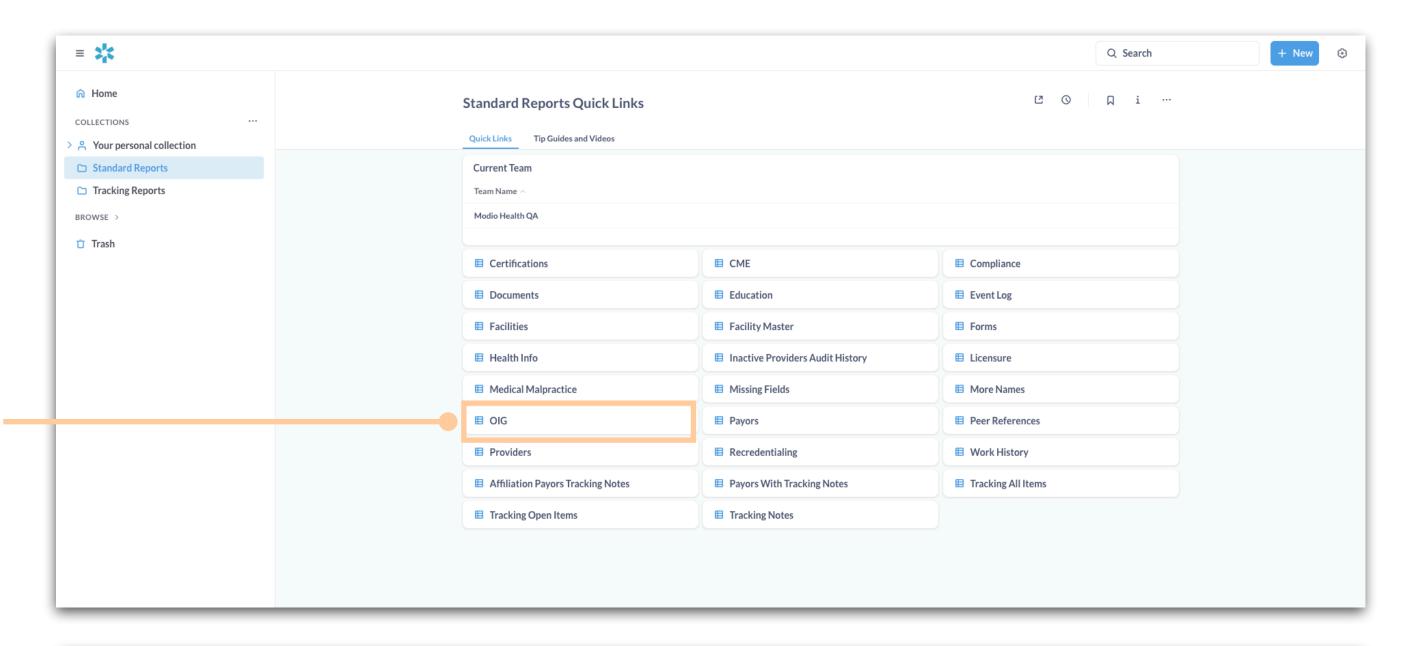

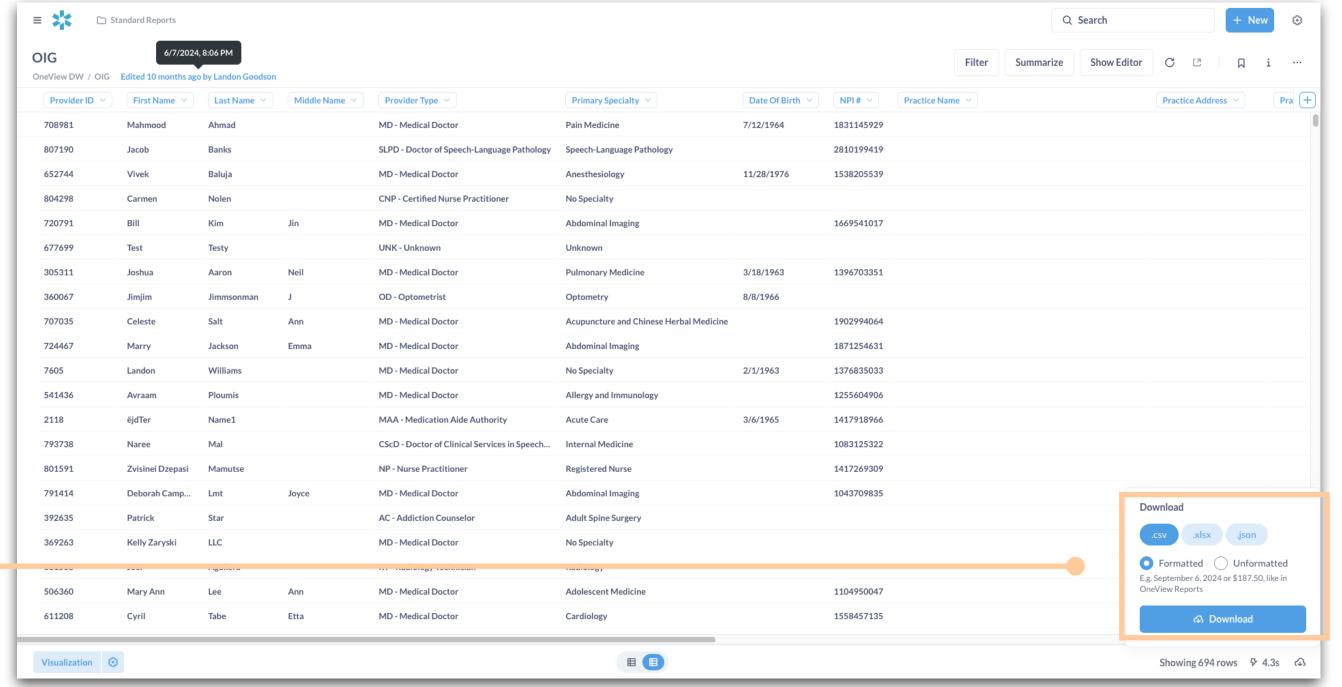

Tip Guide: OIG

Under the Standard Reports folder, click on the "OIG" report to run and view that data for all providers on your team

document folder.

Download the **OIG report** here as a CSV, Xlsx, or Json. You can then save the report to your

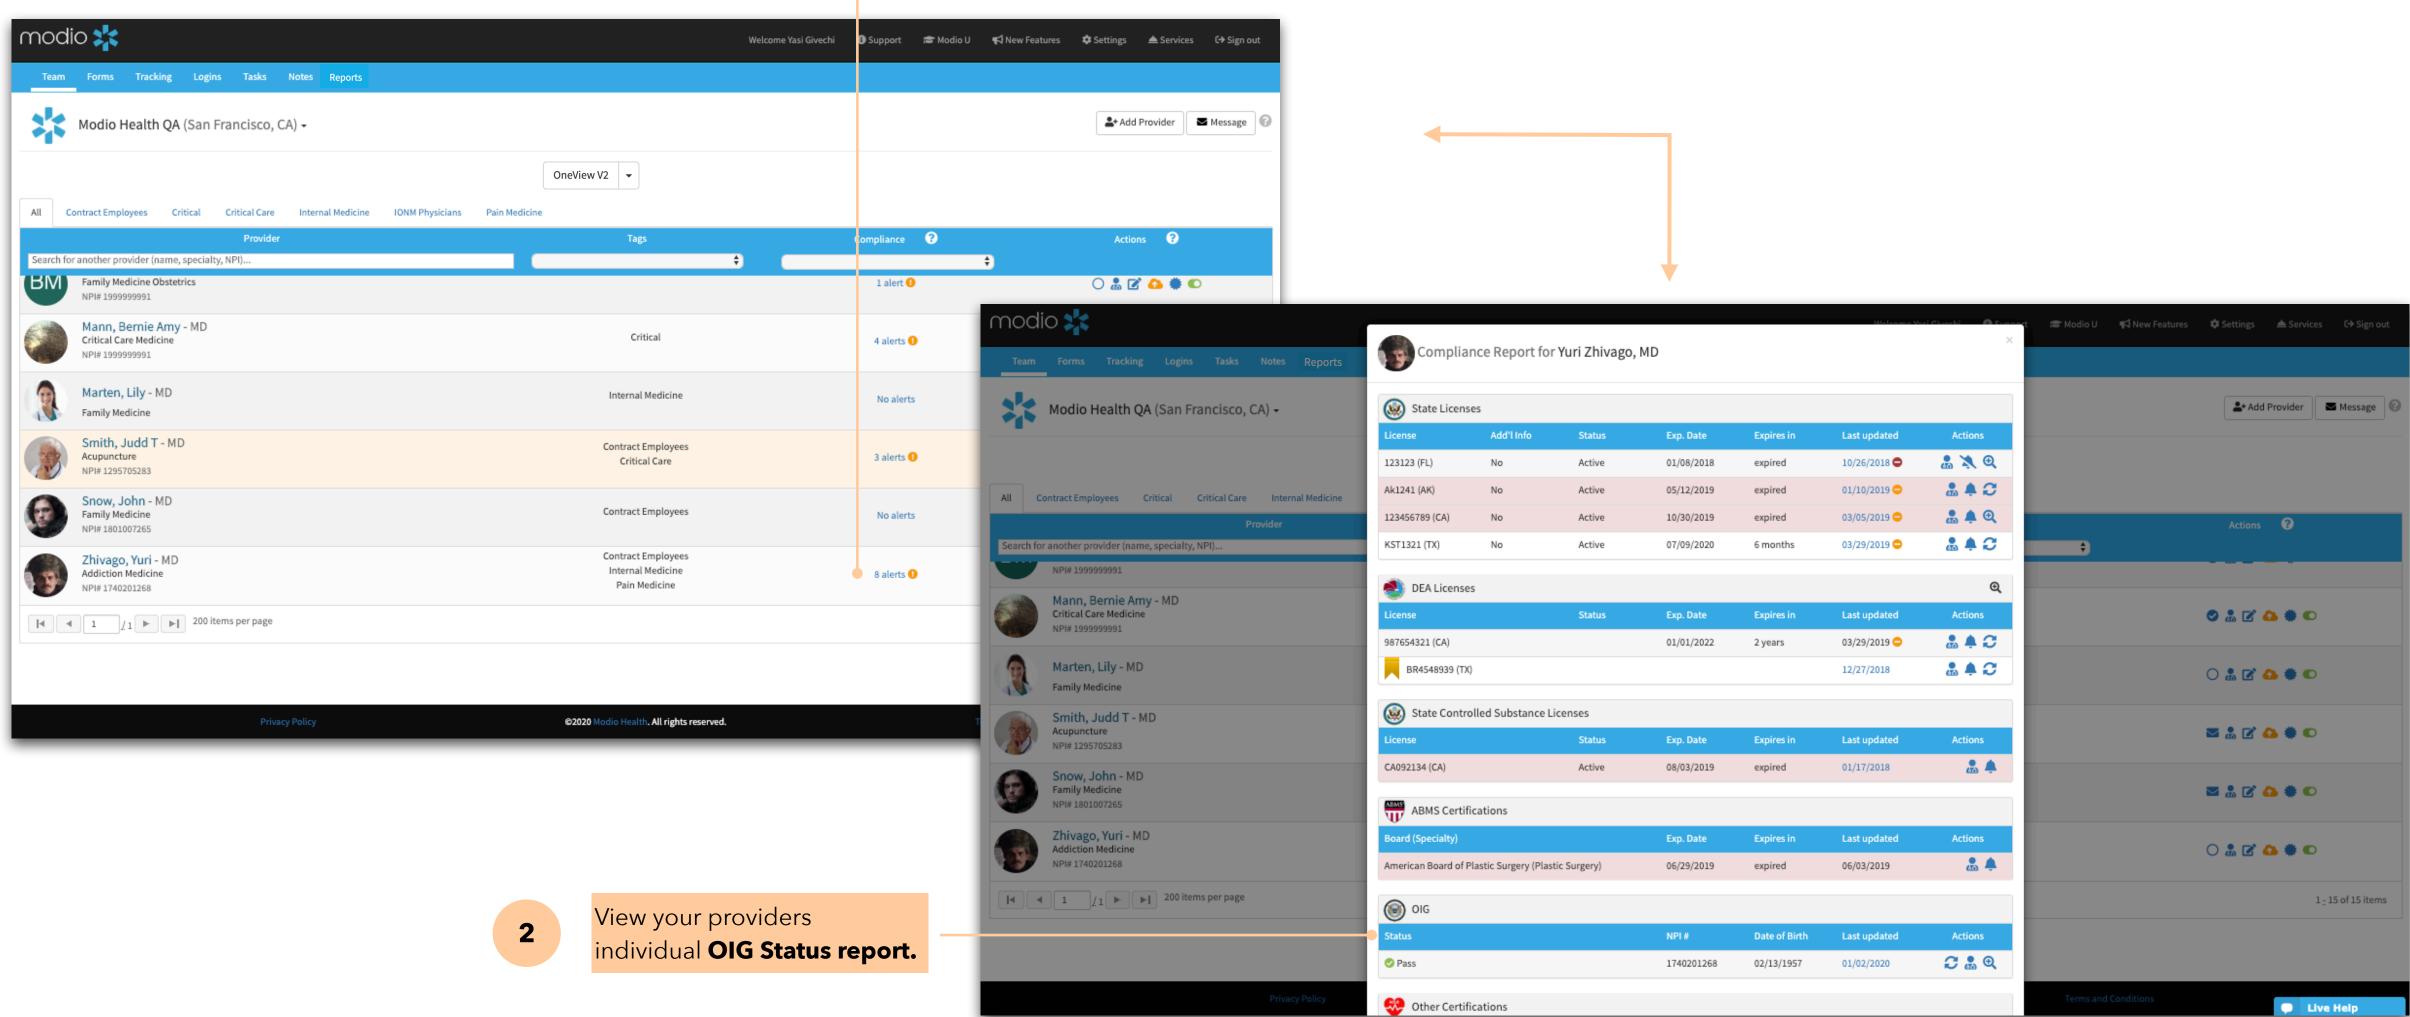

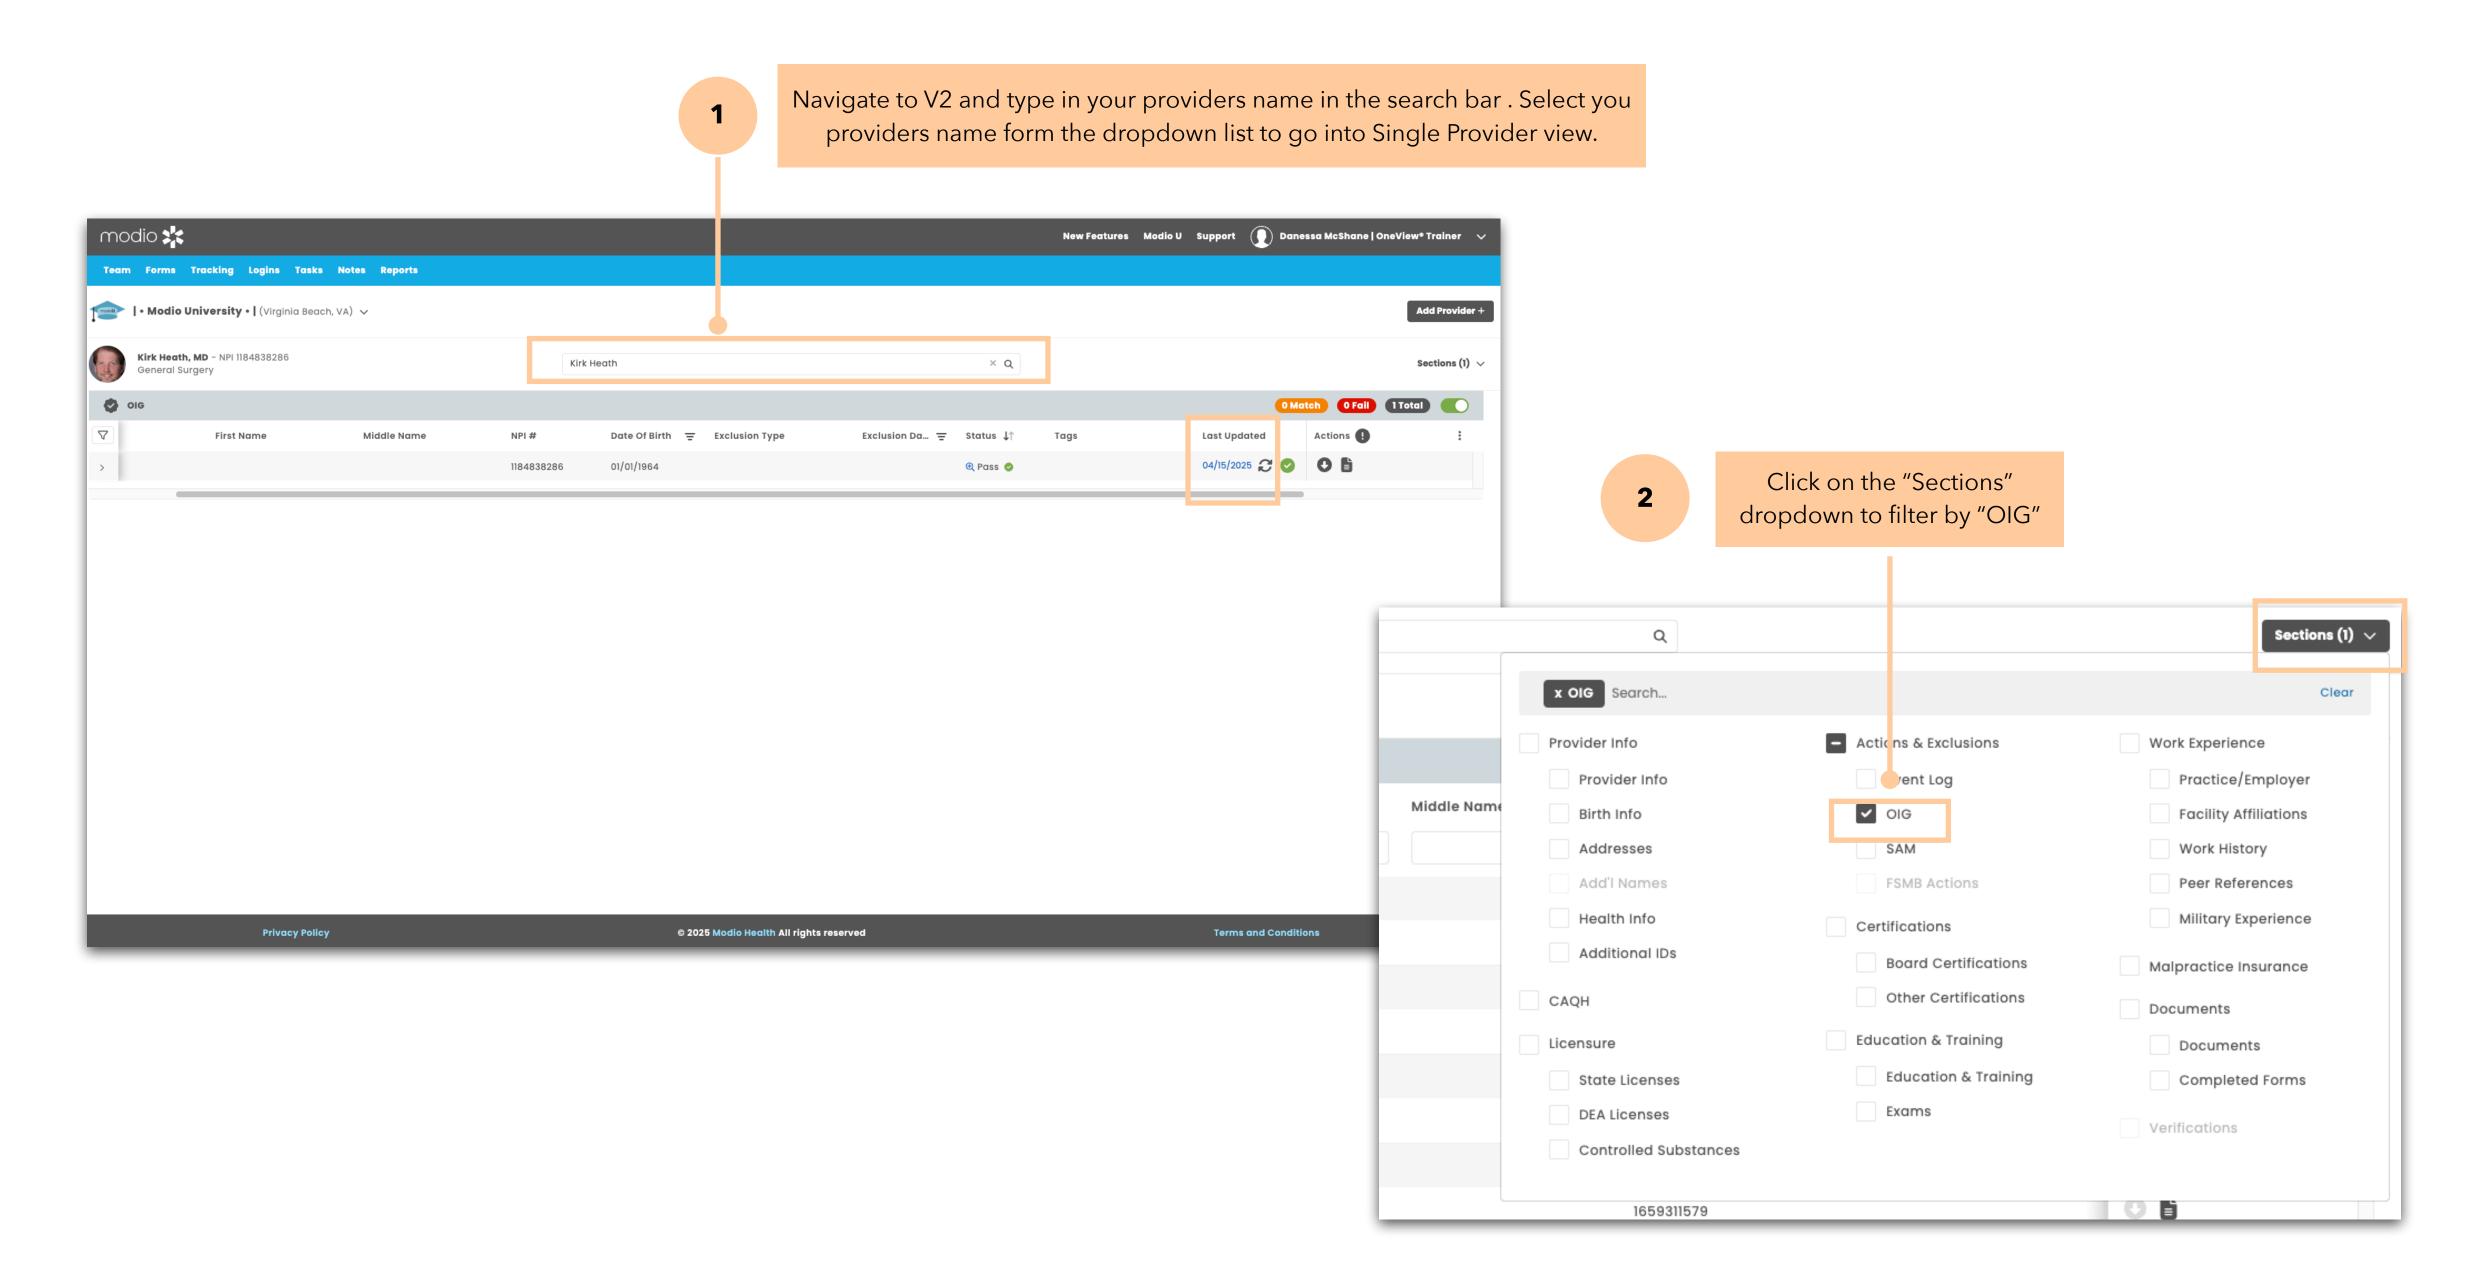

Navigate to a provider and click on the link under "Compliance". (in this case, this provider has "8 alerts")

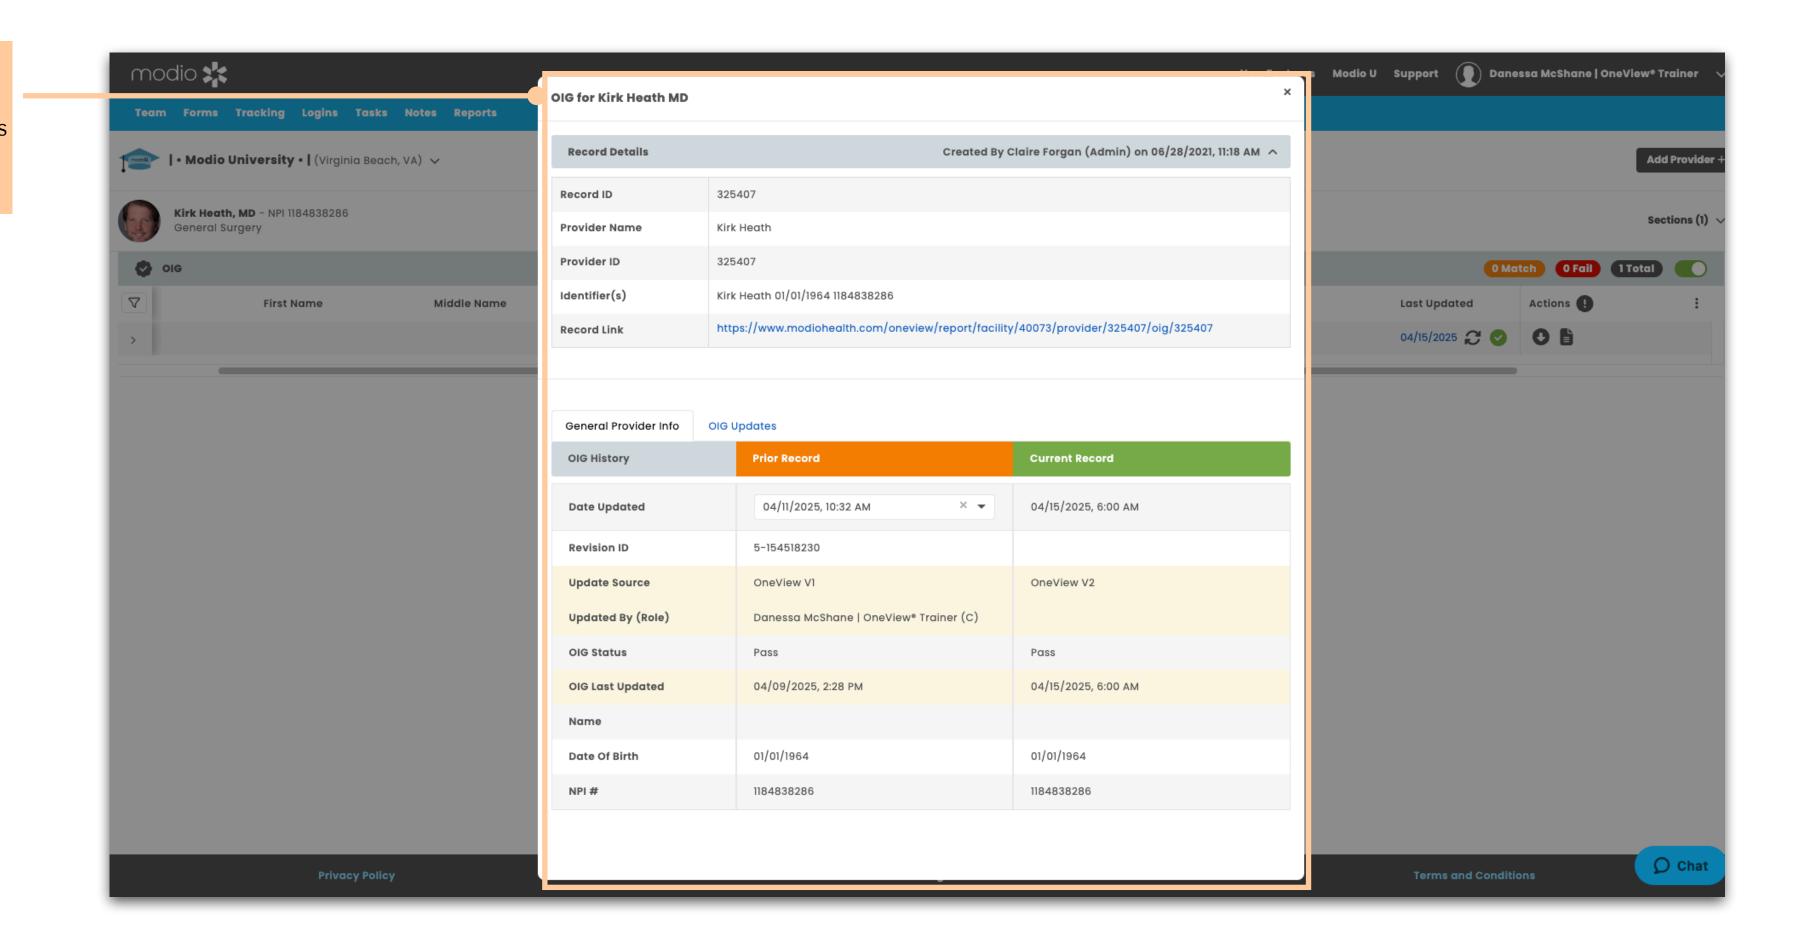

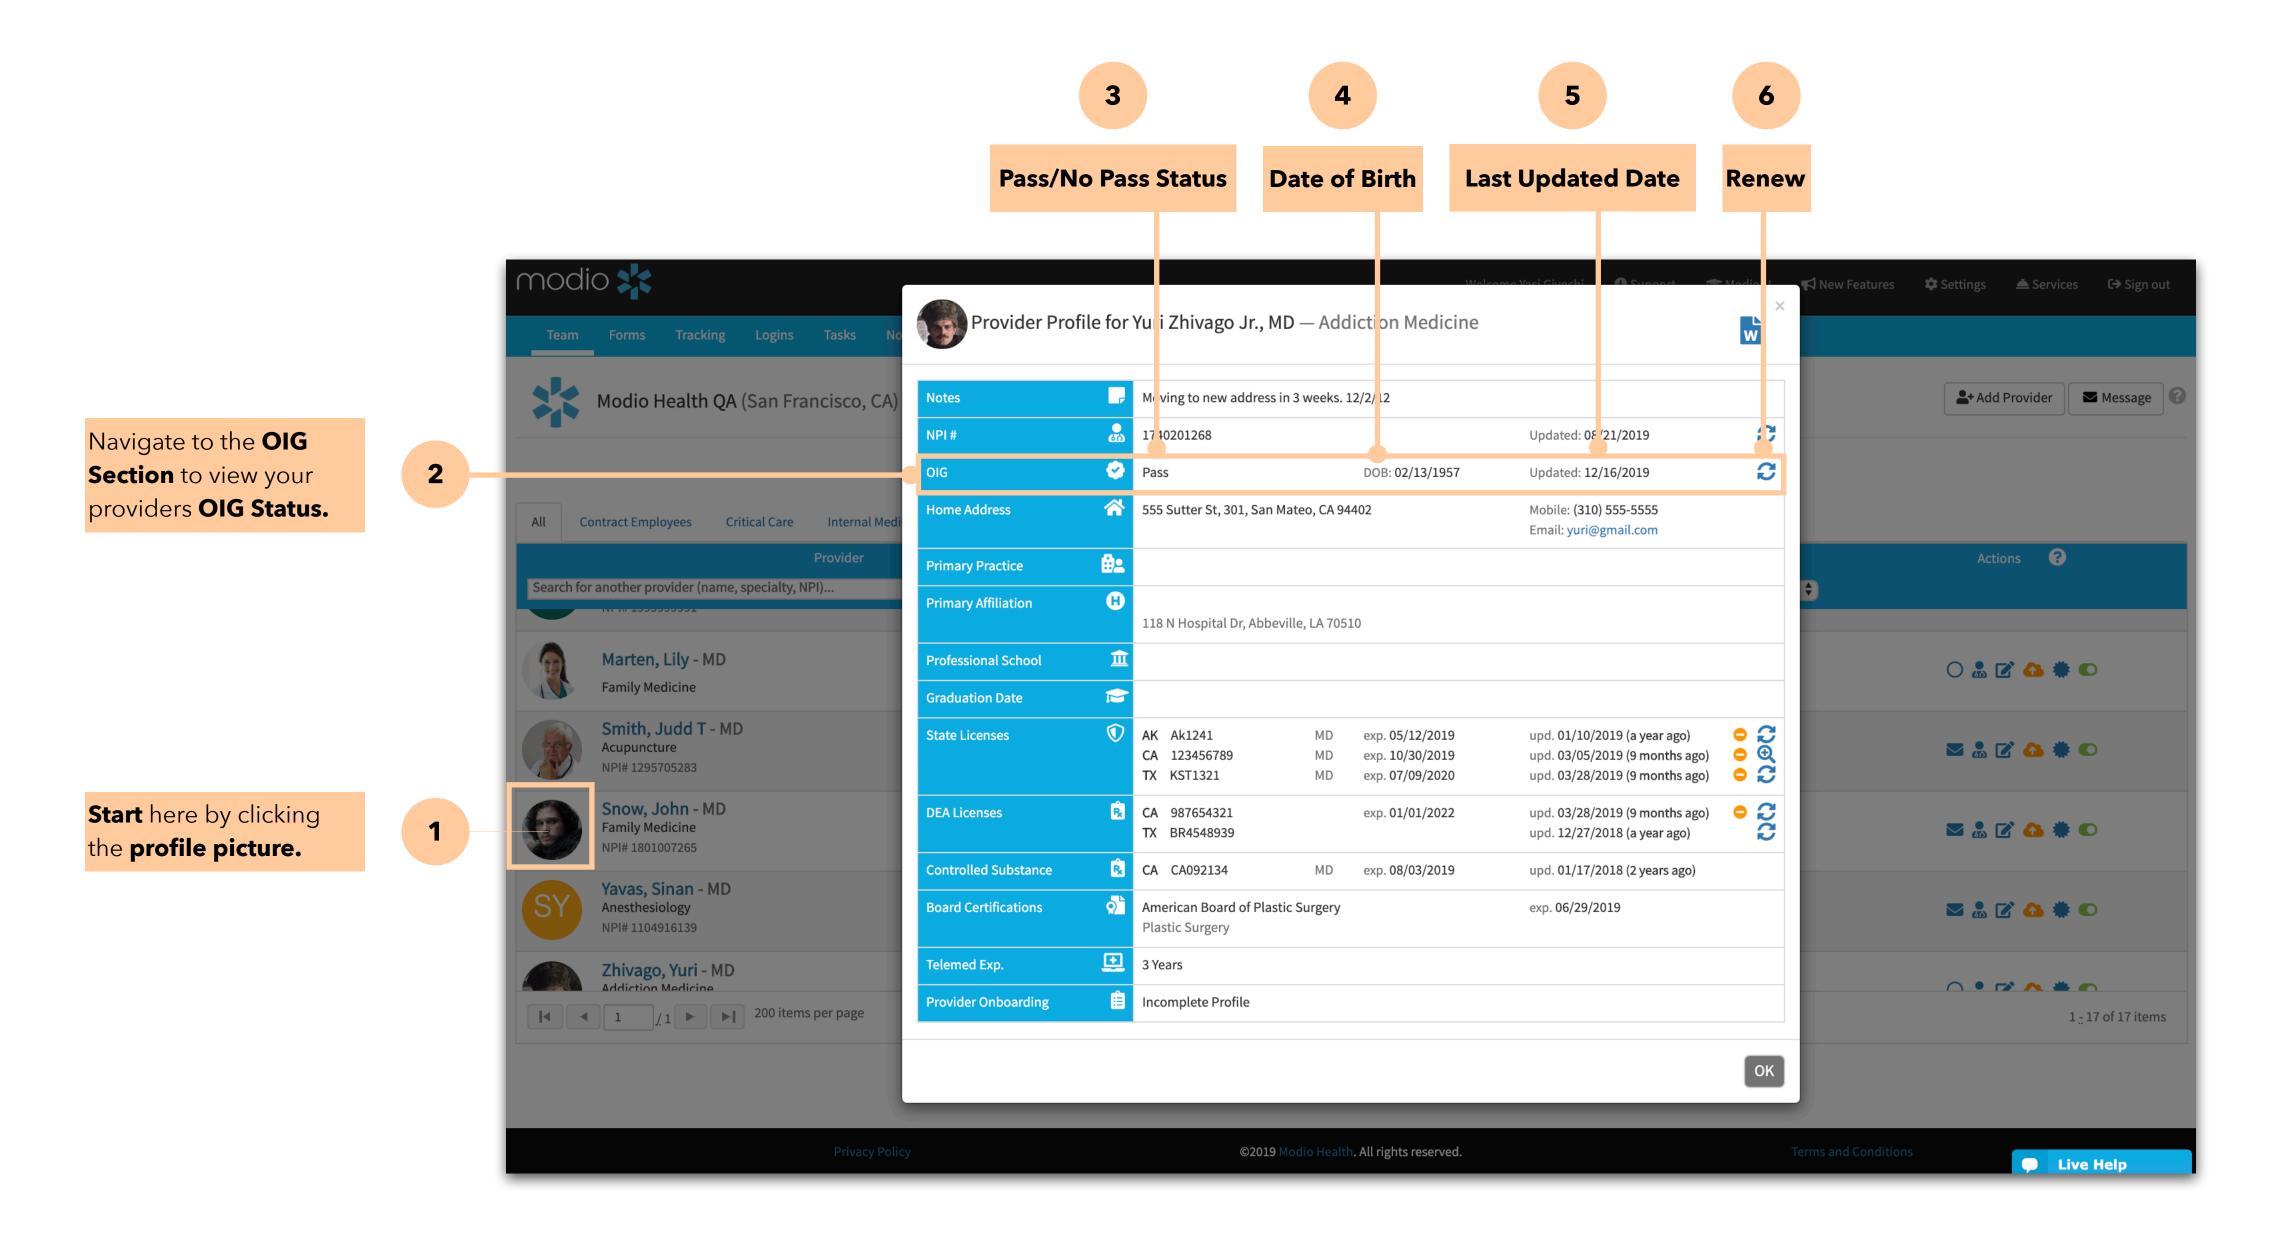

Click the date under the "Last Updated" column in the OIG gird to see the last time the OIG updater was ran, the provider's OIG status, and if any new information was updated.

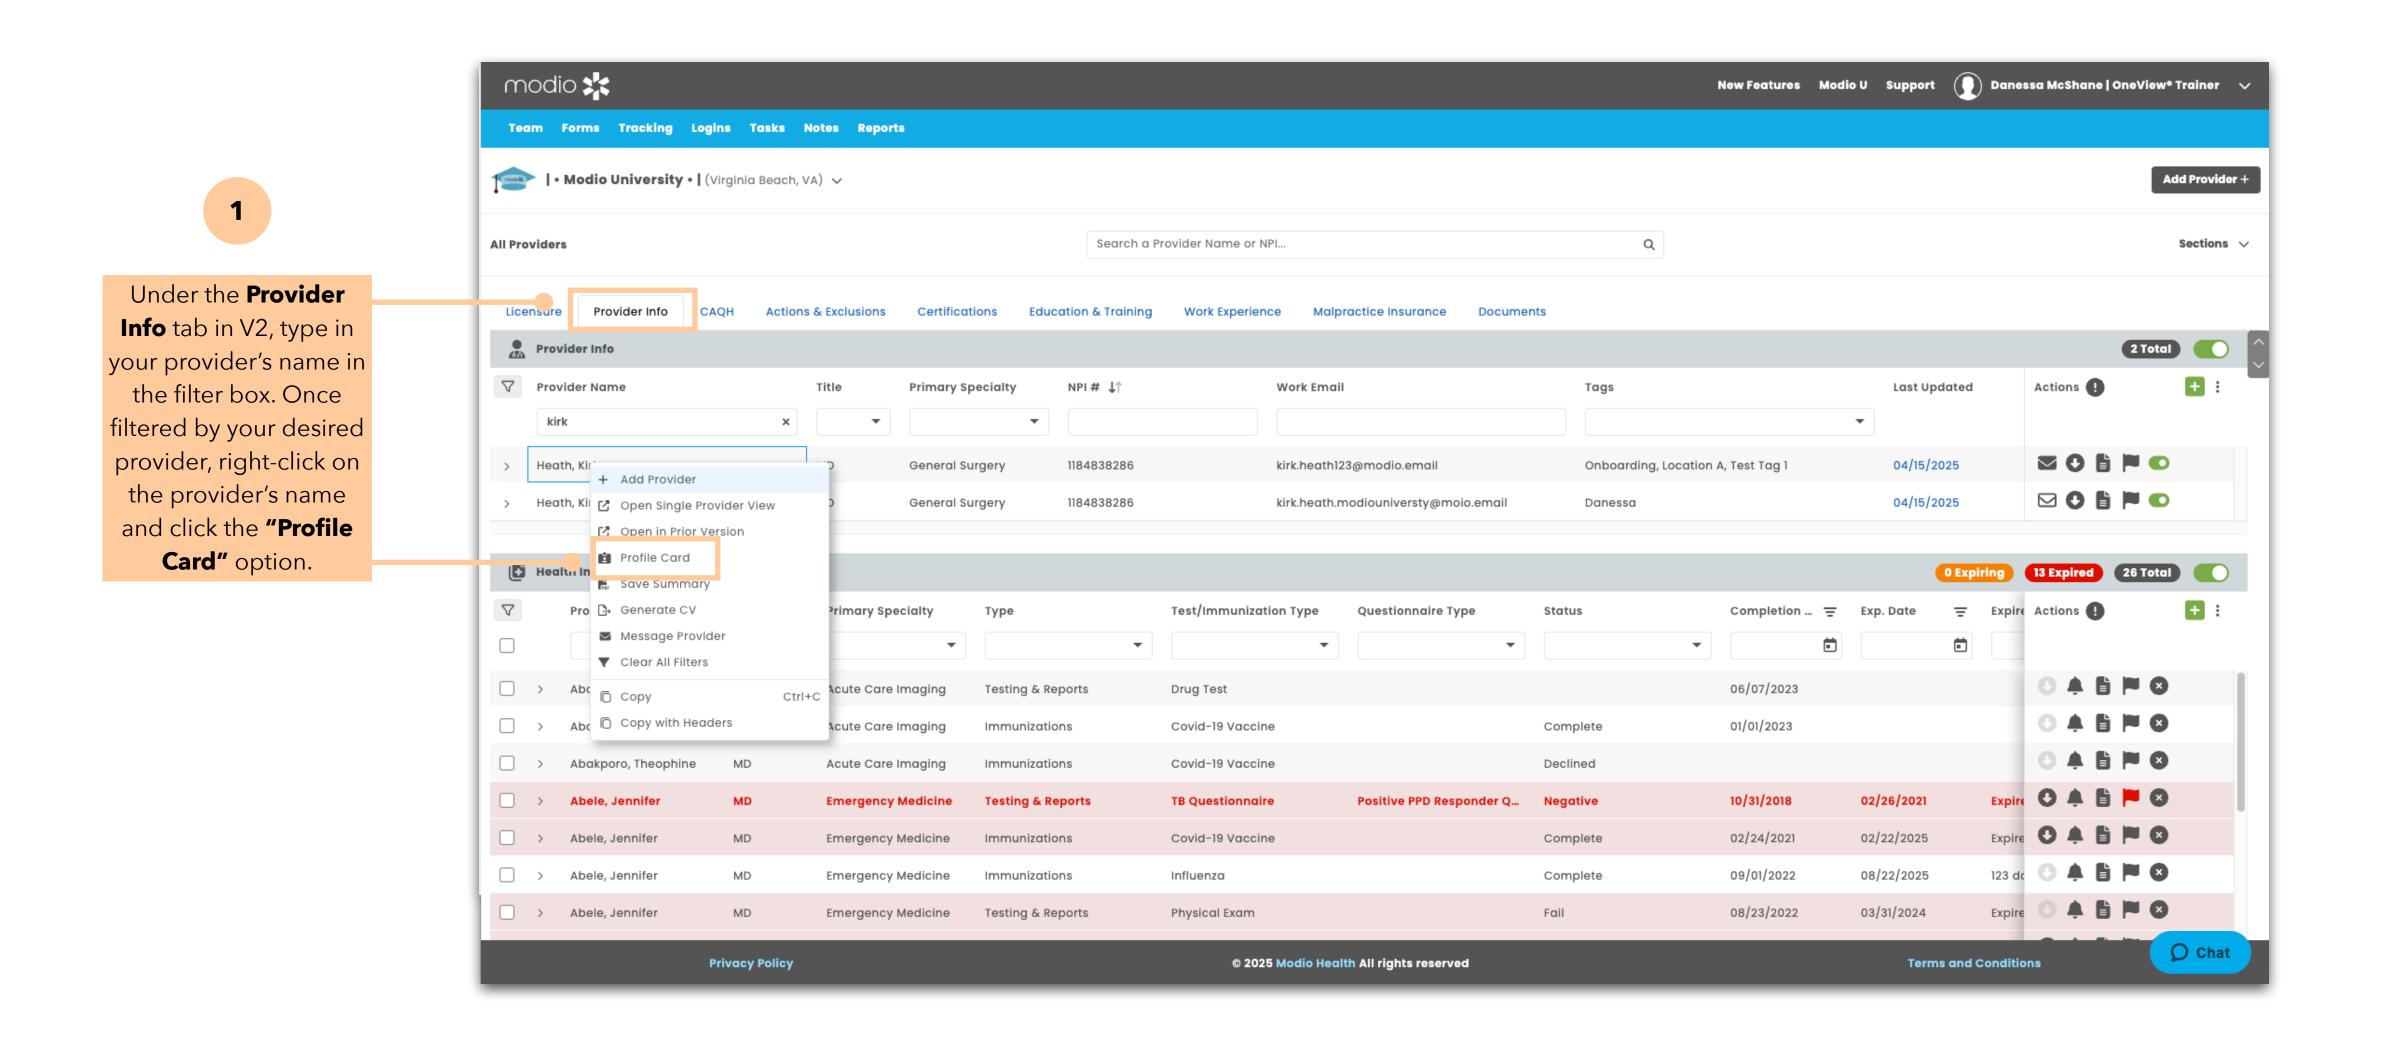

Tip Guide: OIG Provider Profile cards - quickly view a providers OIG compliance status from the OneView® team dashboard.

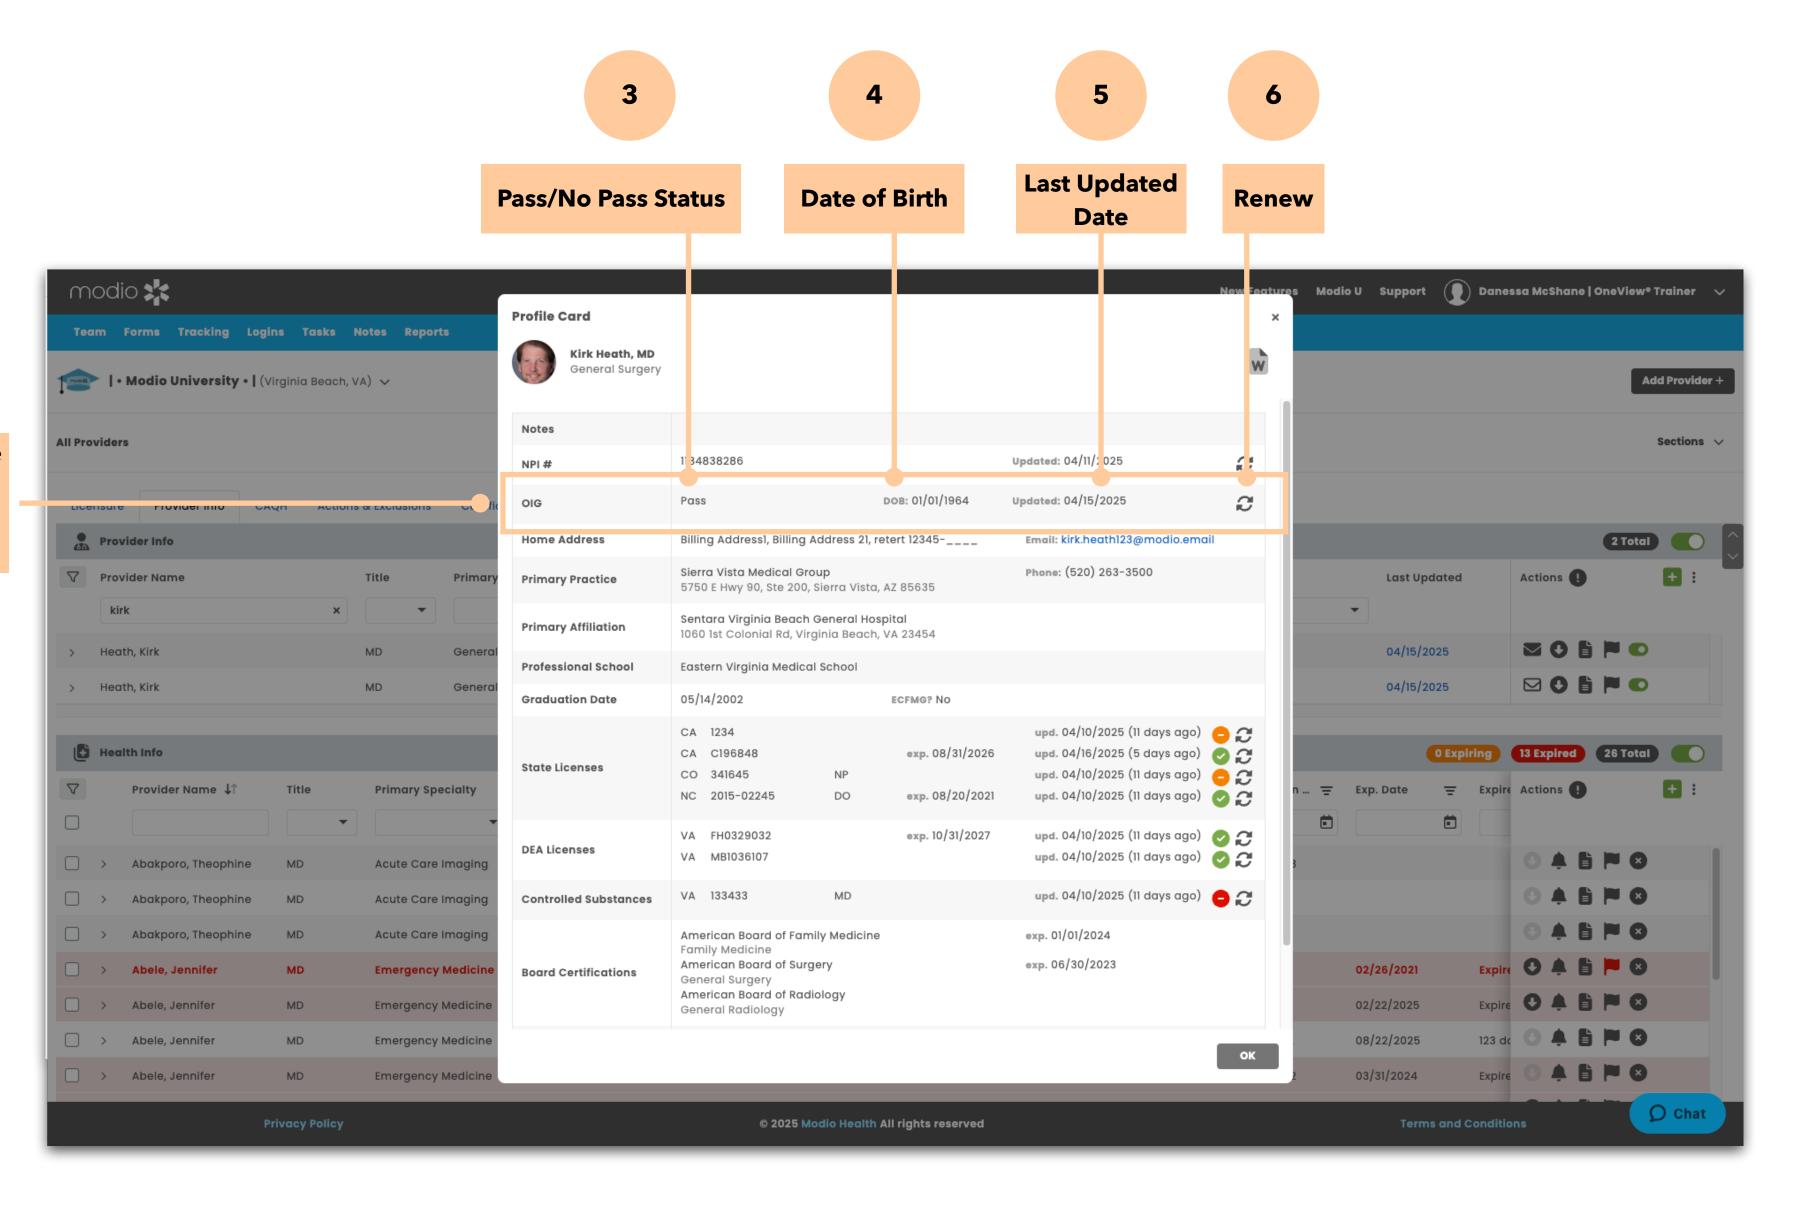

Once opened, you will now be able to see the provider's **OIG status**, as well as other pertinent provider information.
